Zinsser Introduces New Parks Magic Strip™ Paint & Varnish Remover

Somerset, NJ – Removing multiple layers of paint or varnish just got easier! Zinsser is pleased to introduce new Parks Magic Strip™ Paint & Varnish Remover, an extra strength paint & varnish remover that removes up to 7 layers of most oil and water-base paints or varnishes in just one application.

Magic Strip “magically” changes from dark green to pale green when it’s time to strip the surface, taking the guesswork out of paint or varnish removal. Great for do-it-yourselfers, the low odor, non flammable gel stripper is easy to use—even for novice do-it-yourselfers. Just apply a thick coat of Magic Strip. It removes oil or water-base paint or varnish from interior or exterior wood, brick, stone, masonry, metal or fiberglass penetrating and softening up to 7 tough layers in just one application.

Magic Strip is great for use on furniture, doors, wood trim, walls, fireplace mantles, bookcases and more! Biodegradable and methylene chloride free, it is available in convenient quart and half gallon containers.

Parks Magic Strip™ Paint & Varnish Remover is part of the complete line of Parks Paint Strippers and Removers for professionals and do-it-yourselfers. For more information contact Zinsser at 732-469-8100, or visit www.newparks.com.
